

Field Validation and Labels

DoveTrack™ Field Validation and Labels

Operator entered field validation is available. Customization allows customers to specify validation logic to suit their needs.

A full compliment of labels are included in DoveTrack WMS V4.

Customer requirements dictate which labels and validations are enabled.

Labels

- print pick label cover
- print order label cover
- print tote serial label cover
- print tote manifest cover
- print transfer label cover
- print cyclecount label cover

Field Validation

- part number validation
- lot number validation
- serial number validation
- secondary number validation
- location validation
- expiration date validation
- shortage report
